SUMMARY

Product-minded React Native Developer with 2 years of professional experience building modern, intuitive, and high-performance cross-platform mobile and web applications. Skilled in API integration, media/audio streaming, state management, component architecture, and UI/UX optimization for seamless iOS and Android deployments. Continuous learner dedicated to clean code and scalable digital product engineering.

SKILLS & DEVELOPMENT PRACTICES

Mobile & Frontend:	React Native, Expo, TypeScript, JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS
State & Networking:	Redux, Context API, REST APIs, Axios, Fetch API
Media & Audio:	Live Audio Streaming Integration, Background Audio Playback, In-App Rewards/Gamification Systems
Dev Practices:	Component Architecture, Responsive Design, Performance Optimization, Cross-Platform, Agile/Scrum
Tools & Platforms:	Git, GitHub, Jira, VS Code, Figma

PROFESSIONAL EXPERIENCE

Chainscript Pvt Ltd — React Native Developer

June 2024 – June 2026 | Tenkasi, TN

Project: Gilli FM Mobile Application

- Engineered cross-platform mobile features for the Gilli FM streaming app using React Native and Expo, enabling 24/7 live radio playback for global users.
- Implemented background audio controls and audio playback handling to ensure uninterrupted listening across locked-screen and multitasking states.
- Integrated dynamic REST APIs to fetch real-time show schedules, RJ profiles, station news, and event updates.
- Built interactive community features, including contest participation workflows and user engagement modules.
- Optimized audio buffering and app responsiveness across various network conditions on iOS and Android.

Project: Karma League Mobile Application

- Developed and maintained core application modules using React Native and Expo frameworks.
- Built and enhanced real-time Chat functionality to significantly improve user communication and platform engagement.
- Developed interactive Leaderboard features to dynamically display user rankings and statistics.
- Implemented Create Post workflows, enabling users to seamlessly publish custom content.
- Integrated REST APIs to facilitate dynamic content rendering and real-time user features.
- Created reusable, scalable UI components to improve code maintainability and development efficiency.
- Focused on application performance optimization, bug fixing, and UI/UX responsiveness across Android and iOS devices.

Chainscript Pvt Ltd — Frontend Developer

Tenkasi, TN

Project: Admin Dashboard CMS

- Developed comprehensive CMS along with administrative control and user management modules.
- Built fully responsive dashboard interfaces equipped with custom analytical widgets and data tables.
- Connected data streams via API integrations, boosting workflow and report compilation efficiency.
- Maximized platform usability by strictly adhering to modern, responsive web design principles.

EDUCATION

B.E. in Mechanical Engineering

Graduated: Apr 2023

PSN Institute of Technology and Science, Anna University — Tirunelveli, TN
