SUMMARY

Product-minded React Native Developer with 1.6 years of professional experience building modern, intuitive, and high-performance cross-platform mobile and web applications. Skilled in API integration, state management, component architecture, and UI/UX optimization for seamless iOS and Android deployments. Continuous learner dedicated to clean code and scalable digital product engineering.

SKILLS & DEVELOPMENT PRACTICES

Mobile & Frontend Development

- React Native, Expo, TypeScript, JavaScript (ES6+)
- React.js, HTML5, CSS3, Tailwind CSS

State Management & Networking

- Redux, Context API
- REST APIs, Axios, Fetch API

Development Practices

- Component-Based Architecture, Responsive Design
- Performance Optimization, Cross-Platform Development
- Bug Fixing, Troubleshooting, Agile Scrum

Tools & Platforms

- Git, GitHub, Jira, VS Code, Figma

PROFESSIONAL EXPERIENCE

React Native Developer — Chainscript Pvt Ltd

Jan 2025 – Present | Tenkasi, TN

Project: Karma League Mobile Application (React Native, Expo, TypeScript, Redux, REST APIs)

- Developed and maintained core application modules using React Native and Expo frameworks.
- Built and enhanced Chat functionality to significantly improve user communication and platform engagement.
- Developed interactive Leaderboard features to dynamically display user rankings, achievements, and statistics.
- Implemented Create Post workflows, enabling users to seamlessly publish and interact with custom content.
- Integrated REST APIs to facilitate dynamic content rendering and real-time interactive user features.
- Created highly reusable, scalable UI components to improve overall code maintainability and development efficiency.
- Collaborated closely with designers, backend developers, and QA teams to ship production-ready mobile features.
- Focused strictly on application performance optimization, continuous bug fixing, and visual enhancements.
- Improved UI responsiveness and cross-platform user experience across both Android and iOS devices.

Frontend Developer — Chainscript Pvt Ltd

Tenkasi, TN

Project: Admin Dashboard CMS (React.js, JavaScript, Tailwind CSS, REST APIs)

- Developed comprehensive content management systems along with administrative control and user management modules.
- Built fully responsive dashboard interfaces equipped with custom analytical widgets, data tables, and metrics tracking.
- Connected data streams via API integrations, boosting administrative workflow and report compilation efficiency.
- Maximized overall visual consistency and platform usability by strictly adhering to user-friendly responsive web designs.

EDUCATION

B.E. in Mechanical Engineering

PSN Institute of Technology and Science, Anna University

Graduated: Apr 2023

Tirunelveli, TN
